Experience

BalloonBox   *Vancouver, BC*

FULL STACK DEVELOPER   *Apr 2022 - Feb 2023*

- Architected and led front-end development of a cutting-edge web3 product that launched successfully under a tight deadline, driving our client's total staked token amount to soar above US$800K
- Spearheaded the development of a game-changing extension on top of our client's existing product architecture, enabling them to demo and market their offerings in n-fold ways
- Led front-end development of a B2B platform that allows natural resource consumers (manufacturers) to offset their carbon impact by virtually giving back to communities affected by natural resource extraction
- Boosted user approval rate for our client's digital wallet by triple-digit percentage points by implementing Plaid and OAuth for wallet authentication
- Reduced project setup up by 75% by building front end code base template and carrying out best practices through strict linting rules
- Mentored junior colleagues through extensive code reviews and pair programming sessions, helping them to grow their skills and confidence

KnockNow   *Vancouver, BC*

WEB DEVELOPER (CONTRACT)   *Jan 2022 - Apr 2022*

- Led a team of three developers in improving existing web application, optimizing both front-end and back-end services to ensure top-notch user experience
- Launched the revamped landing site with the support of UI designers, improving both visuals and performance

Ynah Pantig - Freelance   *Vancouver, BC*

WEB DEVELOPER   *Dec 2021 - Mar 2022*

- Accelerated website development by providing crucial support to lead developer, utilizing Wordpress and PHP to achieve fast turnaround time

Aquacoustic Remote Technologies   *Vancouver, BC*

DATA PROCESSING AND QC TEAM LEADER   *Dec 2014 - Apr 2021*

- Managed a team of three data processing technicians in delivering high-quality reports to various clients, meeting strict deadlines and exceeding expectations
- Increased productivity throughput by 40% by upgrading software with the assistance of senior developers, implementing techniques to streamline data processing
- Ensured high levels of client satisfaction and repeat business by successfully improving and maintaining software to produce accurate and reliable reports after the departure of a senior developer
